On August 31st, 1865, this Government was paying interest on its public debt at the rate of

\$4.50

per capita. In 1893 the interest charge was

\$0.34

a result worked out by twenty-seven years of Republican Protection.

DAMITIATHEATRE.

Wheeling Intelligencer.—The dams that have broken loose in the West are nothing to those that are breaking loose in Washington over the little matters of appointment.

+

A case is now in the Supreme Court of the United States that goes back to 1865 A. D. It is a matter of disputed state lines between Virginia and Tennessee and hinges on the interpretation of early English grants.

+

IT IS A BACK NUMBER.

Globe-Democrat.—It becomes plainer every day that the Tariff is the last year's bird's nest in the Democratic scheme for carrying out the promises of the Chicago platform.

+

Der Minet Leader.—There are three hundred Consulsists to be filled and there are already three thousand applicants for them. There will be three hundred appointments and at least twenty-seven hundred disappointments.

+

YES; SWAR BOTH WAY.

Pittsburgh Commercial Gazette.—President Cleveland informed the Senate yesterday that he is in no haste about sending in his nominations. Thousands of office-seekers will make affidavit that what he says is painfully true.

+

Chicago Inter-Ocean.—The misery that the President and the P. M. G. are causing just now by going slow can be seen in the fact that there are 70,000 Postoffices and at least an average of seven anxious men waiting for every one of them. Add to these other Departments and "the cruelty to animals" is the greatest business end of the hour.

+

TAXATION AND STARVATION.
New York Advertiser.—The Democratic party says it is in favor of a Tariff for revenue only. It proposes to take the tax off wildcat currency and put it on tea, coffee and sugar. This will compel the poor man to pay a tax from which he is free now, and will give him depreciated currency for his day's work to pay it with.

+

The San Francisco Bulletin remarks that "both are Billion Dollar Congresses, but the first is a great waste of time, something for the country, while the other has skimped them at almost all points." It is proper to add, says *The Huntington Herald*, that the appropriations by the Democratic House of the Fifty-second Congress exceeded by many million dollars those by the Republican House of the preceding Congress.

HOMeward BOUND.

St. Paul Pioneer Press.—When the hungry and thirsty started to Washington to see Grover inaugurated they were unanimous in exclaiming: "It is well!" Now that the days have begun to draw along wearily and the persimmons still far up on the limb, they are reluctantly changing the first letter of the last word to "H" and wending their way home.

When Mr. Satolli restores to a gentleman rights in a Central Church of which he has been deprived for nearly a month all honor will be given to send his children to a parochial school, as he has restored them to W. S. Bowen of West Chester, Pa. It is not hard to discern why the wind is blowing for the parochial schools. Mr. Bowen loved the Public Schools and sent his children to them and for that was punished and now by the American Pope is vindicated.

GREAT GUNS.

The second consignment of the Krupp exhibit for the World's Fair has arrived in New York. The chief article is the big 134-ton cannon, built expressly for the exhibition, the largest gun of ordinary use made in the world. The barrel of the gun is 10 inches. The projectiles fired from it weigh 9,000 pounds, and are four feet long. About 700 pounds of powder is used at a single shot and the projectile is hurled with such terrific force that it will go through a plate of steel twenty inches thick at a distance of nine miles.

The gun will be the largest piece of freight ever handled by any railroad and will be conveyed to Chicago on a car especially constructed for the purpose by the Pennsylvania Railroad Company.

NEW YORK, March 30th, 1893.

Princess Kaiulani arrived from Washington this afternoon. Whilst at Mayaville, Ky., she examined the Gen Ice Cream Freezes at Frank Owen's Hardware Co., and pronounced it to be the best she ever sees and will order a lot of them to present to her mother. She sails on Wednesday.

THE employees of the Elba Iron Works at Pittsburgh have just had their wages reduced all along the line. In the padding department the reduction is from \$5 to \$5 per person. As the Democratic party is now in the saddle, trifles like these are unnoticed by our neighbor of The Bulletin.

OUR esteemed neighbor of The Bulletin made great haste to give Secretary CARLISLE credit for the accumulation of a few millions of free gold in the Treasury—a condition with which he had no more to do than the late lamented WILLIAM GLOVER—but it appears to have escaped his attention entirely that since the new Administration came into power the Republicans have made a clean sweep in every municipal election that has been held in New Jersey. In Cape May the Democratic candidate for Mayor, an incumbent of that office for eight years, was completely routed by his Republican antagonist.

A WASHINGTON dispatch says that Secretary CARLISLE of the Treasury Department has taken a stand on the labor question that is in sharp contrast to the policy which has been pursued heretofore. The President of one of the most prominent labor organizations sent word to him that he would like to have a hearing before an appointment were made in New York, which would have more or less to do with immigration. The Secretary answered that he did not propose to consult any organization or association of any kind whatever in making his appointments; that if they or their representatives had anything to say, or recommendations to make, they could file them in writing or they could state them as individuals. Further, he said he proposed to treat all persons coming to him as American citizens, and individually. As this is the stand taken by the party whose success is largely due to disgruntled labor organizations, it is to be hoped they will take their medicine cheerfully.

NARROW ESCAPE

Secretary Carlisle Run Down by
a Cable Car,

And is Pulled From the Track in Time
to Save Him.

From Being Ground to Pieces by the
Wheels—The Secretary Came as Near
Losing His Life as Ever Man Did
Without Receiving Bodily Injury.

WASHINGTON, March 21.—It was only
by an inch that a vacancy in President
Cleveland's cabinet was averted Mon-
day, as far as his life as a man was concerned,
without receiving bodily injury. About
1 o'clock the secretary started from the
treasury department for his home
three or four blocks distant, for lunch
on G St. He had just stepped into the street
when he was struck at the intersection with
New York avenue, which has long been
known as the most dangerous corner in
the city. Here the cable cars sweep
around the corner at a rapid speed, and
many accidents have occurred. The secretary
had just started across the track when
he was in a brown study. His
eyes were on the ground, and he ap-
peared to be entirely oblivious of his
surroundings. A cable train at that
moment was coming around the corner
and was about to strike him. The
carried could not get out of its way.
The gripman rang his bell violently, the
passengers in the grip-car stood up and
shouted, and the people on the street
set up a shout of warning. Secretary
Cleveland, however, paid no heed, and
it did not seem to realize that they were
endeavoring to attract his attention. Just
in the nick of time a passer-by sprang
at Carlisle, seized him around the waist
and dragged him off the tracks. The
front end of the cable car brushed his
shoulder and the car stopped.

Woman Fights Fire.

KANSAS CITY, March 21.—The prairies
which have been ranging over west-
ern Kansas have caused great destruction
of property with great loss of life
in Lane and Wichita counties, and
the house of John Erickson, Mr. Erickson,
who was buried while attempting to
rescue his little daughter, died Sunday.
Thomas Jamison lost fifty head of cattle
which were pastured in an enclosure
fenced with barbed wire and could not
escape. Much loss of property and live
stock is reported.

German Journalists Coming Over.

NEW YORK, March 21.—A large batch
of German journalists are expected here
by the Augsburg Victoria. They are
Dr. Cavalier, of Port Hans; Hans
Oiden, Berlin Boerheim Courier; Limmer
Leibnitz, Berliner Zeitung; Max
Mueler, Steyrer, Buda Pest, Linz;
Max Horwitz, Berlin National Zeitung,
and Ernest Von Hesse, Warberg. All
bound for the Chicago exposition. The
Norman will bring over a second lot
of press people, and among them several
representatives of the London press.

STARVING MEN TORTURED.

Starving Story of Cruelties Practiced on
Connecticut Convicts.

NEW YORK, March 21.—The world de-
voted itself to an exposure of the
cruelties practiced by the convicts
in Connecticut state prisons. It is as-
serted that many convicts have been
driven to madness by Warden Chamberlain's
cruelty and neglect.

Several were clubbed to death and
one was driven to suicide by torturing
and confinement in a dungeon. Many
more were strung up by the thumbs,
and keepers were sent in front of
the starving wretches with tempting
food to tantalize them. Several victims
died in a short time. The grubbing of men was
frequent. Corroborative evidence is
given of the charges by ex-keepers
who were forced by the warden to keep
silent. An official investigation has
been ordered.

SEVERAL CLUBBED TO DEATH.

NEW YORK, March 21.—A shabbily
dressed man, identified as a member of the
Committee of Vigilance, is preparing to go
to the prison to get what few remained
of the starving convicts to a place of safety. They
found that the warden had starved and
seventy-four persons they had started
with only ninety-one survived. Sixty-
two of those who had perished were
political prisoners. Among those lost
were Madame Lazarov, six other women
and four children.

FLEMINGBURG.

The girl with the dinner-bell dress on appeared on our streets last week.

She has rented the big stone house adjoining Kenny & Ross, and will move in as soon as it can be fitted up.

Our town is not in any boom. There is not a vacant house in it, and only fourteen new houses going up now.

At the cake walk Saturday night Coleman Bradley opened a bay window in the breed arrangements of William McKee. Bradley is in jail now. McKee has been present ever since he arrived in his part of the business. He should. Our City Council should put a tariff on it is tax on the cake walk jamboree.

There are three applicants, besides the present incumbent, for the Postoffice. Mr. Charles Johnson is to be the strongest, positive. Mr. Ladd will be the second best. He has made a very acceptable one, and the only offense is his bald head which Henry Franklin uses to shade from the sun.

Willie Bruce Dudley, aged 14 months, swallowed a half box of glassine tacks, but the McKinley Tariff on tin made him throw them up. He is now in a hospital, with a quart of water and salt water brought to it. He next took in seven buttons of a G. A. A. coat. They are him yet, and we will probably open a button factory in the near future. He does not speak for the first outfit to make a set of epaulettes for the new Gigante Brindle, to be used in the next Democratic parade in 1999 or later.

Winter Cholera.

Small form of bowel complaint, popularly known as winter cholera, made its appearance recently in Fairgate, M. V., and several other places. No apprehension need be felt from it, as few doses of Chamberlain's Colic, Cholera and Diarrhea Remedy will effect a cure in every case. For sale by Power & Reynolds, druggists.
